

Accomplish your mission at Raffles College Open Day!

If you're looking for a great career in creative design or business, your mission will be accomplished by coming along to Raffles College Open Day on Saturday 10 September, 2011 from 10am to 2pm at 99 Mount St, North Sydney.

Raffles Open Day is your chance to speak to academics, students and support staff to get all the 'inside info' on courses and careers you're thinking about. See an exciting and extensive range of student work and hear from our graduates now working in careers they love and talk about their current employment and career successes.

Your 'assignment' will be of a different kind as 'secret agents' help you on a discovery road to your future. Be part of the action and let your imagination run wild when visiting our photography department. You'll probably bump into James Bond, Get Smart, Agent 99 and many more undercover agents!

Raffles College offers courses tailored for you as a creative and innovative individual. Courses use the latest technologies and include the use of WACOM graphics tablets that you will receive as part of your enrolment package* starting from the February 2012 intake.

Visitors will see the film studio in action with special effects and the blue screen, or they can try their hand at 2D and 3D animation in Raffle's next generation multimedia labs. Graphic Design and Interior Design have some great interactive sessions for you too.

If you're thinking about a business career and want to make an impact on the world through entrepreneurship, innovation and change, Raffles is on a mission to help you through our business courses. Test-drive your interest on the day with business games and prizes!

Internships are a critical part of our programs for you, as a final year student to help you 'hit-the-ground-running' to get a job after graduating.

"Our compulsory internship connects our programs to industry. It provides our students with a unique opportunity to learn first-hand about a specific area they think they may be interested in, and at the same time exposes them to valuable industry contacts," says Raffles College CEO, Mr Isaac NG.

Raffles can boast that many of its students move on to successful careers in the design and business worlds.

Natalie Rizk, an Australian fashion design graduate, entered the world of high fashion having recently landed a job with world-renowned Beirut based couturier, Zuhair Murad. The design icon dresses international mega-celebrities including Beyonce Knowles, Jennifer Lopez and Christine Aguilera.

Raffles graduate Elie Maalouly continues to go from strength to strength with his world-class graphic and digital media company, Randem Media, having won the 2009 and 2010 City of Sydney Marketing and Communication Business Awards. Elie will be giving insights into his success at the Parent and Prospective Student Info Session starting at 12 noon on Open Day.

Chat to the radio Edge 96.1 street team, have a chance to win the latest Apple iPad by registering for our FREE half-day workshops throughout the year, see last year's Fashion Runway Show on DVD, collect a bonus 'goodie' bag and have a bite to eat from our sausage sizzle. You can collect your FREE copy of the Sydney Morning Herald when you register.

Besides a fabulous learning experience, don't miss an action-packed fun-filled day! Mission accomplished!
